

CAREER OBJECTIVE

Full-stack Java developer with a strong foundation in Spring Boot, Hibernate, JPA, JDBC, PostgreSQL and frontend technologies including HTML, CSS and React.js, seeking an opportunity to contribute to real-world projects and enhance my development skills.

SKILLS SUMMARY

Programming	: Java, SQL, JavaScript, HTML, CSS
Frameworks & Technologies	: Spring Boot, React.js, REST APIs, JDBC, Hibernate with JPA
Databases & Tools	: OracleSQL, PostgreSQL, Eclipse, Git, GitHub, VS Code
Soft Skills	: Analytical Thinking, Team Collaboration, Effective Communication

INTERNSHIPS

Software Developer Intern - Pune

Ratna Services | July 2025- Dec 2025

- Developed responsive and user-friendly UI components using React.js and Material UI to improve overall user experience.
- Implemented backend services using Java, Spring Boot, and REST APIs to handle CRUD operations efficiently.
- Collaborated with team members on debugging, testing, and integrating new features to ensure smooth application performance.
- Participated in code reviews and followed best coding practices to maintain clean, scalable, and maintainable code.

Software Engineering Internship (Training-Based)

QSpiders, Pune | Dec 2025 – Ongoing

- Learning and implementing core Java concepts including OOPs, collections, exception handling, and understanding backend development using JDBC, basics of Spring Boot for building web applications.
- Gaining hands-on experience in full-stack development using HTML, CSS, JavaScript, and basic React concepts.
- Working with databases like SQL to perform queries, joins, and data management operations.

PROJECTS

CodePulse - Code Productivity Analyzer (link: <https://github.com/DnyaneshwariGarole/CodePulse>)

Java Spring Boot | React.js | PostgreSQL

- Developed a web tool that analyzes overall code quality and generates a productivity score out of 100 via an interactive dashboard
- Implemented detection of code complexity, duplicate code, dead code & security issues to improve code maintainability and reduce technical debt
- Integrated AI-based suggestions that provide actionable recommendations to guide developers for effective code improvement
- Supports multiple programming languages making the tool adaptable for diverse development teams and tech stacks

Fashion Recommendations System (link: <https://github.com/DnyaneshwariGarole/fashion-recommendation-system>)

Python | MYSQL | Flask | Basic ML Concepts

- Designed and managed a relational database schema for users, items, uploads, and recommendations to support application functionality.
- Defined primary keys, foreign keys, and established table relationships to maintain data consistency and integrity.
- Wrote and optimized SQL queries (CRUD operations and JOINS) to efficiently store, retrieve, and manage application data.

EDUCATION

SSC Sant Tukaram Vidyalaya	Kalyana, India
Percentage: 85%	(2018-2019)
HSC Vivekanand Jr. College	Hiwara Ashram, India
Science - Percentage: 87%	(2020-2021)
Anuradha Engineering College	Chikhli, India
Bachelor of Engineering in Computer Science: 8.37 CGPA	(2021-2025)

CERTIFICATIONS

Java Full Stack Development – QSpiders, Pune

- Completed hands-on full stack Java training with a strong focus on Spring Boot, Hibernate, JPA, JDBC, PostgreSQL, Oracle - SQL, HTML, CSS and React.js, along with real-world project development and RESTful API implementation.
